

GeneDesign, Inc.

Company Profile

Name: GeneDesign, Inc.
Established: 20 December, 2000
Number of Employees: 21
Capital: JPY 77,000,000
Address: **Head Office, R&D Center / Plant**
 7-7-15-306 Saitoasagi, Ibaraki,
 Osaka 567-0085 Japan
 Phone: +81-72-640-5180
 Fax: +81-72-640-5181
Osaka Office
 301 ASONE R&D center 4-15-5
 Tenma, Kita-ku, Osaka 530-0043 Japan

Head Office, R&D Center / Plant
Saito Bio-incubator

Business Field

Oligonucleotides Manufacturing

Custom DNA/RNA/LNA oligonucleotides
(From micro gram to gram scale)

Biotechnology Reserch Support

DNA sequencing
Custom Peptide
Custom Antibody Manufacturing
de novo Gene Synthesis

GMP Pilot Plant

- Class 100 (A)
- Class 10,000 (B)
- Class 100,000 (C)
- Class 100,000 (D)

- Flexible Capacity and Compact Facility
- Capable ssDNA / RNA, dsDNA / RNA, Post Synthesis Modification
- Sterile Preparation with class 100 (A) condition

Corresponding to Therapeutic
Oligonucleotide candidates

Examples
of Product

Our Focus & Present Results

Process Development & Mass Production for Various Oligonucleotides

Start GMP Manufacturing development
Establishment of CMC

Design for New Nucleotides and Oligonucleotides

Establishment of manufacturing Scheme for Ribbon-Type Decoy
Development of Functional Artificial Nucleic Acid, called BNA(LNA)
